

FS V2 USB Headset – User Guide

Congratulations on choosing the FS V2 USB Headset made by Teleconnectors, India's Headset Technology Pioneer. This headset is designed for voice application on soft phones.

Features

1. Professional grade enterprise communication headset with noise cancellation mic
2. Single cable binaural style design
3. Compatible with Win 7/Win 10 and Linux
4. Plug and Play operation
5. Digital volume control – adjusts receive volume levels for comfortable listening
6. Mic mute function for disturbance free, private aside conversations with corresponding LED indication (Active – red)

Operation - Basics

Connect the FS V2 USB Headset to your PC/Laptop USB port. The driver will be installed automatically.

Volume Control

Mic Mute

Check the operation by making a call on the softphone via FS V2 USB Headset. Press the mic mute button, the LED will glow in red and verify whether the caller cannot hear your voice. To release mic mute, press the mic mute button again.

You can adjust the caller's voice to your comfort level by using '+' button that increases the receive volume level and '-' button that decreases the receive volume level.
