

INLINE V6 USB Adaptor – User Guide

Congratulations on choosing the Inline V6 USB Adaptor. TLK Inline V6 USB Adaptor made by Telekonnnectors, India's Headset Technology Pioneer. This adaptor is designed for voice application on soft phones.

Features

1. Compatible with Win 7/Win 10 and Linux
2. Plug and Play operation
3. Digital volume control – adjusts receive volume levels for comfortable listening
4. Mic mute function for with corresponding LED indications (Active – Red)
5. Anti-skid design (i.e. finger grip design) added on USB connector for user convenience
6. Compatible with USB 2.0 full speed operation
7. Comes with SmartKonnnect (SK[®]) termination

Operation - Basics

Connect the Inline V6 USB Adaptor to your PC/Laptop USB port. The driver will be installed automatically. Connect a TLK SK[®] terminated Headset to the open SK[®] end of the Inline V6 USB Adaptor.

Press the mic mute button on the adaptor and verify whether there is a corresponding “RED” LED indication. Check the operation by making a call on the softphone via Inline V6 USB Adaptor connected headset. Adjust the receive volume to your comfort level using the volume control button.

Mic Mute

For private conversations, mic mute is provided. When you press the mic mute button, your caller will not hear you, whereas you can hear them. LED will glow in BLUE to indicate that you are in mute. To release the mute, press the mic mute button again.

Receive Volume Control

You can adjust the callers voice level to your comfort level by using the digital volume control.

‘+’ button increases the receive volume level and ‘-’ button decreases the receive volume level.
